(*iii*) that their maintenance and repair costs shall be borne by the Municipality in the absence of any specific donor;

(*iv*) that their free and unobstructed use by the public for domestic purposes be duly safeguarded and no special privilege be claimed by the donor; and

(*v*) that they are not placed close to any other public fountain at a distance of less than 600 feet.

9. *Applications for House connections*:—The owner or consumer shall make an application for water connection in the form prescribed by the department to the authorised officer through a licensed plumber. The application shall be accompanied by a certificate of ownership of the house, the Municipal assessment receipt with details of the annual rental value, the Municipal deposit receipt for the road cutting or repair charges, a detailed estimate of cost of connections, and sketches of the several houses in the compound and the details of layout of the pipe service, in relation not only to the departmental distribution lines running closeby, but also to the public and private drains, latrines, etc.

10. *Plumber's register of House connections*:—The plumber shall maintain a register of such applications sanctioned and completed and shall submit the same before the 5th of each month to the authorised Officer.

11. *Plumbers notice for gettting connection.*—The plumber executing the work shall give at least two day's notice to the authorised officer for getting connections with the departmental distribution line.

12. *Service connection by whom given.*—The service connection shall be given by the authorised Officer or his sub-ordinate empowered by him in this behalf in the presence of the plumber and the consumer or owner.

13. *Connection to mains.*—Such connection with the department public main shall be in accordance with the subsidiary rules issued from time to time by the department in this behalf.

14. The work shall not be commenced until after the departmental approval is communicated in writing to the consumer or owner, through the concerned licensed plumber.

15. *Quality of pipes and fittings.*—No person shall for the purpose of conveying, delivering, receiving or using the water supplied by the department, fix, fit, or use any pipe, tap, valve, cock, cistern or any other water fittings or sanitary appliances which shall not be the quality and strength prescribed by the department. No consumer or owner shall be entitled for the supply of water unless and until such pipes and fittings and the laying and fixing thereof are approved by the authorised officer.

16. *Rates for materials and work.*—A schedule of rates chargeable for the materials and for the execution of work as in force at the time, shall be kept by the department for the information of the consumers or owners.

17. *Specifications prescribed.*—The department may by subsidiary rules, prescribe the size, nature, materials, workmanship, strength and mode of arrangement, connection, disconnection, alteration and repair of pipes, meters, cocks ferrules, valves, soil pans, water closets, baths, cisterns, and other apparatus and forbid any arrangements and use of any water fittings which may allow or tend to allow any waste, undue consumption misuse, erroneous measurement or contamination.

18. *Extension of connections.*—In case where the consumer, or owner, applies for extension of the existing connections, he shall not be required to alter or renew the fittings existing on the date of application, unless in the opinion of the authorised officer, they are so defective or located in such a position as to cause or likely to cause obstruction to the water supplied by the department or result in waste, undue consumption, misuse or contamination of the water.

19. *Communication of pipes.*—No premises which has been separately assessed to Municipal Tax shall, except with the special permission in writing of the President, be supplied with water by more than one communication pipe.

20. *Conditions for a pipe connection.*—Every separately assessed domestic premises shall be entitled to have its own separate communication pipe, subject, however, to the capacity and the pressure of the distribution of sub-main nearest to the premises permitting the grant of such connections.

21. *Connection from nearest Distribution Line.*—The water connection shall, as a general rule, be taken from the nearest distribution line feeding the locality wherein the premises is situated. Special connections from other submains shall be subject to the express orders of the President.

22. The President or the authorised officer may, if at any time, he deems it necessary in the interests of the supply, to alter the position of an existing connection with any public main or of the communication pipes or fittings thereof, direct such alteration after giving not less than two days' notice in writing to the person concerned. The cost of all such alterations up to the departmental stop valve shall be borne by the department.

23. Except under a written agreement with the department and subject to its conditions, no consumer shall fix, fit or use on any premises, any self-acting sanitary or other outfit on the departmental water supply service line. Such a connection may not be granted by the department except when conditions of supply admit such extra consu tion in the opinion of the officer in charge of the water su ply.

24. *Accessibility.*—Every pipe or fitting within build- ing shall as far as practicable, be, so placed as to dmit of easy access, examination, repair or renewal.

26. *Communication and other pipes not to laid through insanitary places.*—No communication other pipe shall be laid so as to pass into or through a sewer drain latrine, manhole, or ash pit or manure pit. Such pipe shall not be allowed to remain in contact h any foul smelling or injurious materials. In unavoidal cases adequate protection to the pipe shall invariably provi- ded by carrying it through an exterior cast iron be or in any other suitable manner approved by the au orised officer.

27. *Depth of pipes underground.*—Pipes laid open

28. Pipes intended to carry water supplied by the department shall not be allowed to carry water supplied from any other source.

29. *Storage cisterns.*—In every case where the water is to be supplied to a storage cistern, a suitable central valve with an automatic arrangement for closing the inlet shall be provided. In addition to this, a warning pipe shall also be fitted near to the cistern in such a manner that overflowing water from the same can be easily noticed by the consumer or departmental staff.

Note.—A warning pipe is a pipe fixed at the maximum water level of the cistern to indicate the overflow therefrom.

30. A storage cistern, reservoir or storage tank shall be provided with a dust and water proof cover and a ventilator, and shall be so placed as to admit of ready inspection and repairs and cleaning and shall be free from contamination. The position of the warning pipe of the cistern shall not be altered except with the approval of the authorised officer.

31. A cistern buried or excavated in the ground shall be provided with a reflux valve to prevent the back flow of the water to the pipe line and shall be so constructed as to ensure the water tightness as well as the imperviousness of the cistern to outside contamination. The authorised officer may inspect and cut off the service to such a cistern whenever contamination or misuse, or any defect in construction is noticed.

32 Unless otherwise specially authorised, no consumer shall be allowed to take water through any boiler water closet, or sanitary appliances, except from a storage cistern of the approved specification.

33 *Removal or alteration or extension of pipes.*—The owner or consumer shall, before starting the removal or alteration or extension of any pipe, give not less than 15 days' notice thereof to the authorised officer and deliver an application through a duly licensed plumber in the form prescribed by the Department.

34 *Only licensed plumbers to execute works.*—All water connections or alterations or extensions or repairs to any water connection shall be done by departmental agency or by licensed plumbers.

The following bye-law numbers 35 to 46 regarding meters and free allowance of water which are as follows are considered as not necessary to this town are deleted.

35 *Meters.*—For every connection, there shall be provided at the cost of the Municipality or Government and maintained in due working order, a water meter for the accurate gauging of the water consumed provided that the authorised officer may dispense with such meters in the case of connections which, in the opinion of the Department, are not likely to consume more water than the free allowance to be granted thereto.

36 The meter shall, wherever practicable be placed inside the premises of the consumer, who shall be held responsible for any damage or tampering with the meter. He shall be liable to pay the cost of making good such damages and to the penalty hereinafter imposed under the Rules.

The President may, subject to the approval of the council assess the damages caused and recover the same in the manner prescribed for the recovery of other charges.

37. *Meter reading.*—The meter shall be read between the 8th and the end of the month, generally between the hours of 7-30 A.M. and 4-30 P.M. and recorded on meter cards hung up by the side of the electric meter cards or in any safe and prominent portion of the house. The consumer shall be responsible for the safety of the card.

38. *Dispute about meter reading.*—

Protests or disputes connected with the meter reading shall be lodged within fifteen days after the monthly readings are recorded on the meter card mounted in the premises. No complaints received after this period shall be entertained.

39. The Municipal Council reserves to itself the right to make its under tests, free of cost, at any time after giving due notice of the same to the consumer.

40. If, on examination, any meter is found to be out of order, the consumption during the period since the last

shall be calculated at the average daily consumption of the last six months during which, in the opinion of the authorised officer, the meter was recording properly and the consumption of water was not for any reason abnormal.

41. *Free allowance of water* :—

The free allowance of water consumer for domestic connection shall be regulated as follows :—

For every one rupee of the annual rental value of the premises, the authorised free allowance shall be 100 gallons per annum, but in no case, shall such free allowance be less than 3,000 gallons or more than 10,000 gallons per month. In the cases of houses containing flushing latrines however an additional free allowance of 750 gallons per month shall be allowed in respect of each such latrine, provided that the concession shall not apply to more than two such latrines in a single house or premises.

The same rate shall apply to Government buildings used for residential purposes.

But in the case of Government residential buildings like Police lines, Nurses' quaters, etc., the free allowance fixed is without restriction of the maximum limit.

42. In case of new premises, free allowance shall be granted from the date of Municipal assessment has effect provided that the construction of work is over and the premises is used for bonafide domestic purposes. In the absence of the Municipal receipt for payment of assessment, the minimum free allowance fixed under these Bye-laws shall be allowed, provided that the construction work is over and the house or premises is occupied for domestic purposes. The correct free allowance shall be granted only on production of the said Municipal receipt. But in no case shall free allowance be granted for the period not covered by the Municipal assessment.

43. Applications for modifications in the quantity of free allowance allowed by the Department to any premises and noted on the bill sent every month shall be made within 15 days from the date of the bill. No complaints received after this period shall be entertained.

44. *Same premises with separate consumers.*—When ever the Municipal Council assess a premises separately and Department may give a separate connection thereto. But where more than one building is existing, on the same premises occupied by different consumers but under a single assessment, no separate free allowance shall be given to each such undivided building.

45. *Several houses supplied by one pipe* :—

(*a*) In the case of blocks of houses situated in one and the same compound and separately assessed by the Municipality and having only one meter supply connection, where conditions do not admit of giving separate water supply connection on account of insufficiency of main, etc., the total rental value of the houses shall be taken into consideration for purposes of calculating free allowance, subject, however, to the minimum of 3,000 gallons and maximum of 10,000 gallons.

(*b*) In the case of a house the assessment of which has been split up by the Municipality thereby entitling the owner to a separate water connection to each sub-assessed house; it shall be incumbent on the owner to apply for a separate water connection to each sub-assessed house, and where conditions do not permit of separate connections being given, due to insufficiency of main, etc., the free allowance shall be calculated on the total rental value of the block as a whole and not on the independent rental value of each of such sub-assessed house in the block.

46. In the case of premises used partly for domestic and partly for any of the non-domestic purposes, the president shall decide the portion of the premises eligible for free allowance and fix the quantity thereof. An appeal shall lie, against the decision of the President to the council whose decision shall be final.

(The following Bye-laws Nos. 47 to 63 which are as follows are adopted without modifications).

47. Whenever a person ceased to occupy the premises supplied with water or to use the water, he shall send a written notice to the authorised officer. In case of his failure to do so, the department may proceed against the person or including those for excess consumption or wastages occurring during the period of non-intimation to the authorised officer.

48. *Inspection of premises.*—The authorised officer may enter any house, building or land to which water is supplied to examine if therebe any waste, or misuse of water or if there is dispute about the supply of water and for inspecting the water fittings for conveying, receiving, storing and measuring water or for removing the instruments belonging to the department.
